Aspen is a 30-minute flight from the Denver International Airport (DIA) via United Express, which offers many flights per day. Non-stop service is offered from many US cities and can change seasonally. Historically, cities with non-stop flights have included but not limited to: Los Angeles, San Francisco, Houston, Dallas/Fort Worth, Chicago, Atlanta and Minneapolis/St. Paul.

Eagle County Regional Airport, located just 70 miles from Aspen, is served by American, Continental, Delta, Northwest, and United Express with non-stop flights from 11 U.S. cities.

## ground transportation

Scheduled and chartered, limousine and van services are available from Denver International Airport, Grand Junction's Walker Field Airport and Eagle County Regional Airport. ## by car

One of the best ways to take in the splendor of the Rocky Mountains is from behind the wheel of your car.

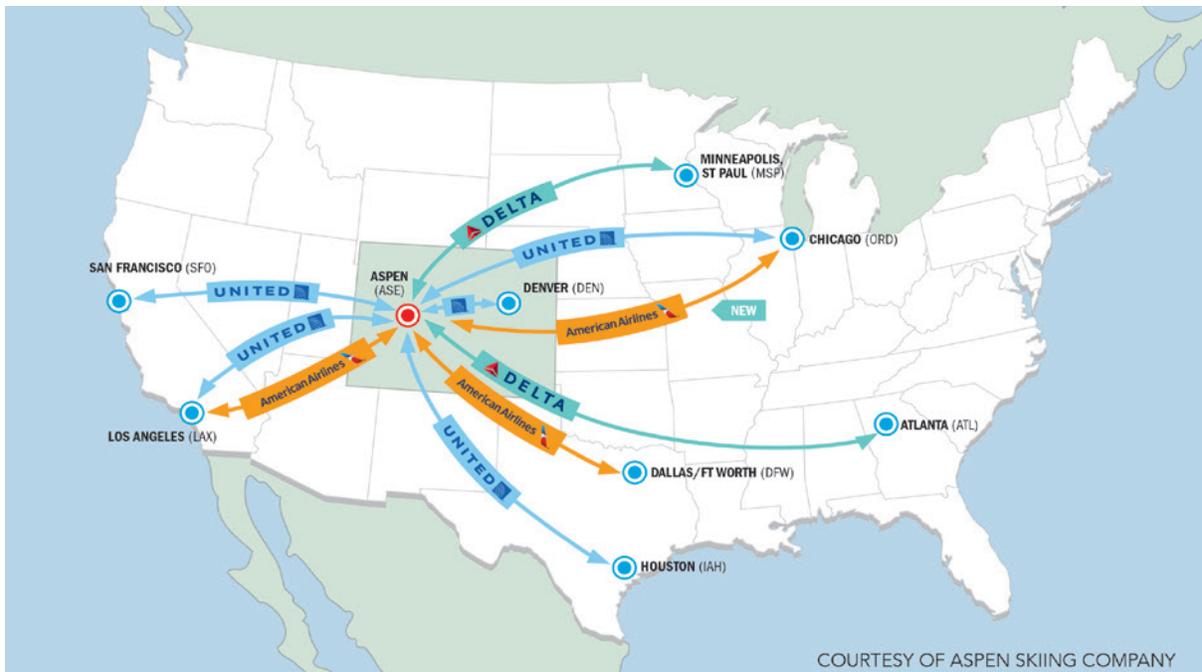

Aspen is 220 miles or approximately a 4-hour drive from Denver in winter via I-70 West to Glenwood Springs, then east on Highway 82. During summer (late May-late September) the scenic route from Denver is I-70 West to 91 South through Leadville to 24 South, then west onto Highway 82 over Independence Pass. (The pass is open only during warm-weather months.)

From Eagle/Vail, Aspen is about 70 miles or approximately 1 hour and 40 minutes on I-70 West to Glenwood Springs.

From Grand Junction, Aspen is an easy 2-1/2 hour drive east on I-70 to Glenwood Springs then east on Highway 82.

## in-town transportation

Getting around Aspen/Snowmass is easy. The Roaring Fork Transit Authority (RFTA) provides extensive free bus service between Aspen and Snowmass, as well as free shuttle buses between the four mountains. Snowmass Village provides its own free shuttle service throughout the town. Frias guests who book luxury accommodations receive complimentary on-demand in-town transportation.

# SKIING, SPECIAL EVENTS, ARTS...

## skiing, snowboarding and nordic

Almost 70 years after dedicating the first chairlift on Aspen Mountain, the Aspen/Snowmass experience continues to get better and better. With four mountains – Aspen Highlands, Aspen Mountain, Buttermilk and Snowmass – no other ski resort in the world offers so much.

Aspen Mountain is a vertical smorgasbord of skiing and snowboarding options. There are double-black and tree runs as well as groomed, intermediate cruising runs under Ruthie's and Ajax Express lifts. Experience all the beauty inside Aspen Mountain's Silver Queen Gondola.

Locals call Aspen Highlands their favorite. Rising 3,635 vertical feet, Aspen Highlands offers some of the most challenging skiing in North America. Ski and ride Highlands Bowl with locals as you work on your technique and explore new terrain.

Home of the ESPN Winter X Games, Buttermilk also welcomes beginners. Less experienced skiers and riders cruise wide, rolling trails while experts jib in the terrain parks and superpipe.

Ride the eight-person Elk Camp Gondola at Snowmass, which will whisk you from the new Base Village to the top of Elk Camp in just 8.5 minutes. Combined with the Village Express six-pack and sky cab gondola, the lift network at Snowmass promises to get you up the mountain almost as fast as you come down! Whether you are looking for a mountain to keep your family of shredders happy, or you're hoping to fine-tune your rail and half-pipe skills, Snowmass' three parks have you more than covered.

**Parents, did you know that kids 6 & under always ski/ride for free at Aspen/Snowmass?**

The **Ski & Snowboard Schools** of Aspen/Snowmass pros are some of the best trained, most talented and dedicated in the world, committed to sharing their love of winter sports and making the most of your time on the slopes. With over 1,200 pros across four mountains, there's a program to suit every age, interest and ability level.

**Getting around** to experience each of Aspen's four ski mountains couldn't be easier. **Free skier shuttles** run every 15 minutes from conveniently located stops throughout Aspen to each mountain. Take advantage of the equipment transfer service between mountains to transport your equipment to the next day's destination.

## special events

Special events of all kinds and for every interest blanket the Aspen calendar throughout the year.
